

## CCDA Bill Tracking Report

### Text Summary

---

#### **SB 251**

Title: Disability access: civil rights: income tax credit.

Author: Roth, Richard

Current Status: 9/10/15 In Senate. Concurrence in Assembly amendments pending.

Current Location: 9/10/15 S-CONCURRENCE

Summary based on bill dated 09/04/2015

(1) Existing law prohibits discrimination on the basis of various specified personal characteristics, including disability. The Construction-Related Accessibility Standards Compliance Act establishes standards for making new construction and existing facilities accessible to persons with disabilities and provides for construction-related accessibility claims for violations of those standards. Existing law requires that a demand letter alleging a violation of a construction-related accessibility standard or asserting a construction-related accessibility claim include specified information, and that copies of the demand letter be sent to the State Bar of California. Existing law repeals the requirement that a copy of a demand letter be sent to the State Bar of California on January 1, 2016.

This bill would extend the above-described January 1, 2016, repeal date, to January 1, 2019.

Existing law requires that a copy of the demand letter and the complaint be sent to the California Commission on Disability Access.

This bill would, in addition, require that information about the demand letter and the complaint be submitted to the commission in a standard format specified by the commission.

(2) Existing law specifies that a violation of construction-related ~~accessibility~~-*accessibility* standards personally encountered by a plaintiff may be sufficient to cause a denial of full and equal access if the plaintiff experienced difficulty, discomfort, or embarrassment because of the violation.

This bill would exclude certain technical violations from the scope of this provision, if specified conditions are met.

(3) Under existing law, a defendant is liable for actual damages plus minimum statutory damages for each instance of discrimination relating to a construction-related accessibility standard.

This bill would exempt a defendant from liability for minimum statutory damages with respect to a structure or area inspected by a certified access specialist for a period of 120 days if specified conditions are met. The bill would require a defendant who claims the benefit of this provision, to disclose the date and findings of any certified access specialist (CASp) inspection to the plaintiff.

(4) Existing law requires the State Architect to establish and publicize a program for the voluntary certification by the state of any person who meets specified criteria as a CASp. Existing law requires the State Architect to annually publish a list of CASps. Existing law requires each applicant for CASp certification or renewal to pay certain fees, and requires the State Architect to periodically review those fees, as specified. Existing law provides for the deposit of those fees into the Certified Access Specialist Fund, which is continuously appropriated for use by the State Architect to implement the CASp program.

This bill would additionally require the State Architect to publish, and regularly update, easily accessible lists of businesses that file prescribed notices of inspection, and businesses which have been inspected by a CASp on or after January 1, 2016, including the date of the inspection. The bill would require the State Architect to develop a process by which a small business may notify the State Architect that a structure or area has had a CASp inspection and to develop a form for businesses to notify the public that the business has obtained a CASp inspection. The bill would also require applicants for CASp certification or renewal to additionally provide to the State Architect the name of the city, county, or city and county in which the applicant intends to provide or has provided services, and would require the Division of the State Architect to post that information on its Internet Web site.

(5) Existing law establishes the California Commission on Disability Access for purposes of developing recommendations to enable persons with disabilities to exercise their right to full and equal access to public facilities and facilitating business compliance with applicable state and federal laws and regulations. Existing law sets forth the powers and duties of the commission, including developing educational materials and information for businesses, building owners, tenants, and building officials, posting that information on the commission's Internet Web site, and coordinating with other state agencies and local building departments to ensure that information provided to the public on disability access requirements is uniform and complete.

This bill would additionally require the commission to provide a link on its Internet Web site to the Internet Web site of the Division of the State Architect's CASp certification program, and make the commission's educational materials and information available to other state agencies and local building departments.

(6) The Planning and Zoning Law establishes procedures for the application, and review of an application, for a development project. Existing law requires a public agency to notify applicants for development permits of specified information, including the time

limits established for the review and approval of development permits.

This bill would additionally require local agencies to develop and provide to applicants materials relating to the requirements of the federal Americans with Disabilities Act of 1990, or to instead provide similar materials developed by the California Commission on Disability Access. The bill would require a local agency to notify an applicant that approval of a permit does not signify that the applicant has complied with that act. The bill would also require local agencies to expedite review of projects for which the applicant provides a copy of a disability access certificate, demonstrates that the project is necessary to address an alleged violation of a construction-related access standard or a violation noted in a CASp report, and, if project plans are necessary for approval, has had a CASp review the project plans for compliance with all applicable construction-related accessibility standards. The bill would declare that these provisions constitute a matter of statewide concern and shall apply to charter cities and charter counties. By imposing additional duties on local agencies with respect to the receipt and review of applications for development projects, this bill would impose a state-mandated local program.

(7) Existing federal law allows a credit against federal income taxes for eligible small businesses for eligible access expenditures, as those terms are defined, in an amount equal to 50% of eligible access expenditures for a taxable year that exceed \$250 but do not exceed \$10,250. The Personal Income Tax Law and the Corporation Tax Law allow a credit against the taxes imposed by those laws for the amount paid or incurred for eligible access expenditures in an amount equal to 50% of eligible access expenditures for a taxable year as do not exceed \$250, as specified.

This bill would, for taxable years beginning on or after January 1, 2016, and before January 1, 2021, allow a credit under both the Personal Income Tax Law and the Corporation Tax Law for eligible access expenditures in accordance with the above-described federal tax credit, except with a credit amount equal to 10% of eligible access expenditures for a taxable year, as specified.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

*(9) This bill would incorporate additional changes to Section 55.32 of the Civil Code proposed by AB 1521 that would become operative if this bill and AB 1521 are both enacted and this bill is enacted last.*

~~(9)~~

(10) This bill would incorporate additional changes to Section 8299.06 of the Government Code proposed by AB 1342 that would become operative if this bill and AB

1342 are *both* enacted and this bill is enacted last.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.
